

Limelight's New LED Lighting!

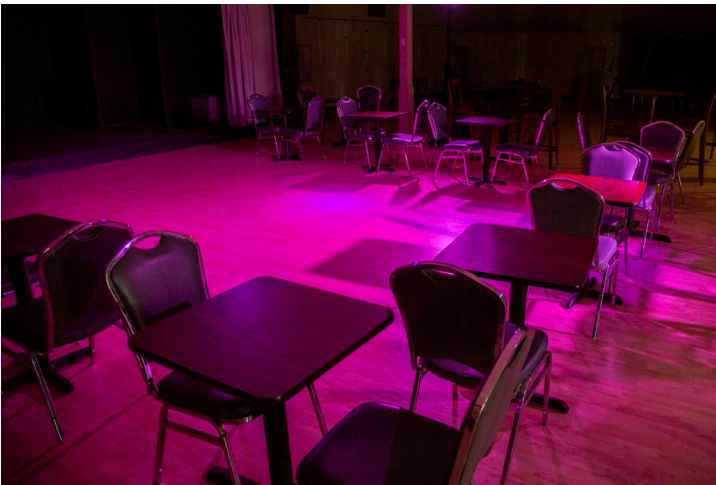

Limelight is moving to a thrust stage, enabling "Theater in the Round"

With the new lighting financed through the Gilroy Foundation's generous grant, we can add any color to the stage

The new ETC lighting fixtures are reliable, flexible, energy efficient, and state-of-the-art.

We can now light any area of the stage, in any mix of colors as called for by the performance.

Actor's view. Note new fixtures on the sides and at the back.
