President's Message

There are many components which have helped to make Gilroy Community Theatre a success for the past twelve years. Two of the most important are community support and performer education.

Tonight's Benefit Concert endorses GCT's continuing program of providing scholarship funds to the young performers of South County.

GCT extends our heartfelt thanks to our young performers for their interest, to our audiences for their support, and to the professional entertainers who donated their time and talents for this evening's concert. Special thanks to Ted Sanchez for coordinating tonight's performance.
